Devotional Reading: 2 Corinthians 4:1-6

Heart at Peace

Lesson for December 2, 1956

EVERYBODY wants what Jesus Christ has to offer. . . At least, they think they want something by the name name, but they do not always know how to get it. Let a book come out with "Peace" in the title and it may easily become a best seller. Between a heart and mind at rest and a heart torn in two, restless, dissatisfied, in perpetual turmoil—who would not choose the heart at peace? But the word Jesus used when he said to those anxious friends, "Let not your heart be troubled,"—at least the word the Greek writer used in reporting Jesus—was much the same as a word the Stoics used, only what Jesus meant was something quite different.

No Arctic Calm
The Stoics had a word "ataraxia" and in it they thought they had the key to happiness.—Or if not that, at least the key that would lock the door against unhappiness. What they meant by it was indifference, just not caring. Of course there is truth in that notion. It is only the sympathetic who can be bothered with other people's troubles. One way to insure yourself against sorrow in this world is simply never to allow yourself to love any one. One way not to worry about tomorrow is not to care what happens or whether anything happens. But this is not the kind of peace of heart which Jesus himself had, or wants his friends to have. The Arctic Ocean is perfectly calm; it is locked in everlasting ice. But the icy heart is not the Christian heart. A swamp is peaceful too; no waves break on its shores. And a human heart can be a swamp as well as an icy lake. But this again is not the heart at peace of which Christ spoke.

Does Faith Bring Peace?
So the heart at peace is not the cold, indifferent heart; it is not the sluggish dull self-centered heart. It is the peace of the flowing river, the peace of the great electric generator which though motionless itself, sends out power to city and countryside. But how to have this? Let not your heart be troubled, Jesus said: Believe. . . We hear great deal about the power of faith. The pathway of faith is the doorway to peace. Yes; but does faith bring peace? It is easy to understand this. Faith can bring a false and fatal peace, not the real thing. A hunter in the north woods can put faith in his compass, and not worry about being lost. But if his compass is wrong he may lose his life. A patient can trust a surgeon; but if the surgeon is incompetent, the patient's trust is fatal. Jesus used the expression, "Your faith has saved you." But faith will not save you if it is faith in the wrong thing or the wrong person. Somewhere in the United States there stood a fine bridge for many years, at least it was perfectly built, out from one side of the river; but the other side had never been built. Faith that does not rest on something or some one worth believing in, is like that bridge; it's worse than no bridge at all, because in the dusk it may tempt people out to their deaths.

"Not What, But Whom"
"Believe," said Jesus. But there are some important words after that. Just believing is not enough. Moreover, believing something is still not what Jesus meant. Some people think that the way to a peaceful heart is to believe a catechism, a set of doctrines. That is not the main thing. "Believe in God," is the word. He who created all things, he in whom all things exist, holds me in his hand too. The Infinite God has room in his heart for me. Turning to him in faith is the highway to peace.—But why does Jesus say, "Believe also in me"? Is not belief in God enough? Or the other way around: Is it not enough to believe in Christ? The Christian experience of faith never can separate Christ and the heavenly Father. The best way to express it would be to say we believe in God in Christ. To believe in God as if Christ had never lived, is to believe in the dark and terrible Mystery, the awesome Avenger, whom the Gentiles feared. To believe in Christ as if God could be ignored, is to believe in Man, man at his best, but still man. The way to peace is the way of faith in the God whose glory we see in the human face of Jesus of Nazareth.

THE OLD TIMER

"The way taxes are today, you might as well marry for love!"

SEEK YE FIRST THE KINGDOM

Showing The Way...

HERE is life's romance; a grandfather guiding the minds of young boys and young boys seeing Heaven through grandfather's eyes. This may be hero-worship but it is a grand time to teach them to pray . . . to introduce them to the eternal Friend. *Your child will listen at each bedtime when you talk about God, and Heaven, and the Church.* He will follow when your journey is toward Sunday School. Oh, for the faith of grandfathers who care and who help youngsters find the way to God. It is our privilege and our responsibility to teach them to say, "Now I lay me down to sleep, I pray the Lord my soul to keep. If I should die before I wake, I pray the Lord my soul to take." If you teach them to trust this prayer, then you can trust them anywhere.

You In The Church... The Church In You

Form a combination for good. Every man, woman and child needs the influence of the church. Be a faithful worker. Attend every service.

Wild Garlic Control Needs Four Treatments

Wild garlic in pastures cannot be controlled by a single application of 2, 4-D (ester form) material, says the U.K. Agricultural Experiment Station.

Two treatments a year for a two-year period (or longer) are recommended. First, hit new growth in the fall; second, in the spring, before new bulbs are formed; third again in the fall, after new growth is well started (four to six inches); and then, in the spring, if needed. This may have to be repeated in succeeding years. The series of four or more treatments may be started in the spring, if desired.

Treatment rates: Two pounds of acid equivalent 2, 4-D (ester form) or 2½ pounds 2, 4-D (amine form) per acre, applied as a foliage-wetting spray. Amount of water varies from 10 or more gallons per acre.

Spraying can be done as late as December, if weather is fair and warm. Pasture clovers will

be somewhat harmed by the spraying. The low volatile ester of 2, 4-D if it is to be sprayed is near tobacco or tomato plants, tomatoes or grape vines and some ornamentals.

Leaflet 151, Kentucky Agricultural Extension Service, lists wild garlic control measures in detail.

Experience is something that helps you recognize a mistake when you make it twice.

New Type Greenhouse Course December 14

Commercial vegetable growers of Kentucky using plastic greenhouses will get a greenhouse management "short course" Friday, December 14, at the University of Kentucky.

Experiment station and Extension Service specialists will discuss greenhouse weeds, disease, insects, marketing, engineering, and plant production, George Marlowe, Extension Service vegetable specialist, says.

Dr. E. M. Emmart, station horticulturist who pioneered in plastic greenhouse work in the nation, will be one of the speakers. Vegetables to be discussed will include tomatoes, beans, lettuce, radishes and cucumbers.

The course opens at 8 a.m. and closes at 5 p.m., and includes practical work in the experiment station's various plastic-covered houses.

County Home News

By Mrs. Ida Carithers

Misses Jewel Thurman and Mary Ellen Horn, Mr. William Robert Markwell and Ralph Adams, from Parkland Baptist Church, came to the Home Sunday evening. Miss Horn played the piano and they sang several songs that we enjoyed. We want to thank them for coming.

At the County Home in Jefferson we had a nice Thanksgiving. For dinner we had turkey and all the trimmings and pumpkin pie. We are all thankful for this wonderful home.

Mr. and Mrs. Evan Romine were guests Sunday afternoon of Mr. and Mrs. Burton Romine. We want to thank the "Sunbeams" of Hopewell Baptist Church for the basket of fruit they sent us for Thanksgiving. We also want to thank the Future Nurse's Club, of Fern Creek High School for the nice gifts they brought us for Thanksgiving.

Mr. and Mrs. George Hulet and the singers from Parkland Baptist Church visited Mrs. Ida Carithers Sunday afternoon.

Mr. and Mrs. Roy Baird and Mrs. Mary Baird went to Louisville to St. Anthony's Hospital for a visit. Renato Baird, she is the daughter of Mr. and Mrs. Lloyd E. Baird. They visited her Saturday night.

Mr. and Mrs. Warren Padgett visited Miss Pearl Padgett, Sunday afternoon.

We extend sympathy to Mr. David Wright in the death of his father Mr. David Wright.

The Old State Capitol building in Frankfort, erected in 1827, is one of the finest examples of Greek Revival architecture in the world.

Festival At Baalbeck

Against a magnificent natural background of towering Roman ruins, some of the world's leading musicians are presenting a series of concerts which mark the opening of the month-long International Festival of Baalbeck, held in Lebanon's historic "City of the Sun."

American artists are sharing the concert platform with the Hamburg Symphony Orchestra, which is featuring the best known works of Mozart in commemoration of the 150th anniversary of the great musician. Guest conductor for two of the orchestra's performances is Leon Hurin, from the United States. Another American, pianist Aldo Marchionni, is performing a special composition entitled "Concerto No. 2" by Asia Falekian, former instructor of music at the University of Indiana and present director of the National Conservatory of Music in Beirut.

In addition to the musical concerts, which will continue through August 5, the Baalbeck Festival will include four plays presented by the Comedie Francaise during the week of August 11. Racine's "Mithridate" and "Theodore," Shakespeare's "Julius Caesar" and Jean Cocteau's "Interactio." Starting on August 25, the festival will play host to England's Regent Park Players, who will present Shakespeare's "Hamlet" and "Twelfth Night."

During all these performances Baalbeck's historic ruins, including the 2,000-year-old temples of Jupiter and Bacchus, are floodlit by a huge new electric plant which was installed after the tremendous popular success of last year's initial festival in the ancient town. This year's festival, sponsored by Lebanese President Camille Chamoun and Madame Chamoun, is part of a national program to develop greater appreciation of the Arts in Lebanon and to provide cultural events of universal appeal for the thousands of tourists who flock each year to the ancient land of the Phoenicians.

BUY-NOTES ON FOOD

From Extension Service, Kentucky College of Agriculture and Home Economics

In the first three months of margin in modern milk marketing, 1956, the average price of fluid fresh milk at the retail level was 22.9 cents per quart.

In many areas of the country a price of milk cost more or less than the consumer must pay over and above the cost of the milk itself. The price spread between what the farmer receives and what the consumer pays for a commodity is known as the marketing margin. The marketing

margin in modern milk marketing includes all charges for storage, processing, and distributing the milk. There are many hidden benefits to the consumer in all modern milk handling. For example, refrigeration is provided from farm to household refrigerator to keep flavor, and vitamin content high.

Probably the best understood benefits to the shopper are those which take place at the processing level. It is at this point that Vitamin D may be added to the milk, that pasteurization takes place. Pasteurization, of course, destroys disease-producing bacteria in the milk. Homogenization takes place during processing, also. In this process, milk is forced under pressure through small openings in a metal plate and the globules of butterfat are greatly reduced in size. Homogenization causes the butterfat to remain evenly distributed through the milk and improves flavor.

Newburg News

By Mrs. J. H. Shively

The Newburg congregation had a Happy Thanksgiving when they welcomed the large crowd from Fairview congregation and among the speakers Rev. Hickman who delivered a powerful sermon. Subject, "A Declaration of Dependence." Mr. Johnson, and his choir sang, "Come Ye Thankful People" which is always associated with the Thanksgiving season. Words and music very foreful. The words carry the whole plan of God's goodness.

The choir is working on a Christmas program. Plans are being made to come. Date announced next week.

Nice crowd at church Sunday to hear Bro. Simms' challenging sermon, Subject "The Road To Christmas." Mr. and Mrs. Ernie Taylor of Flemingsburg worshipped with us and we are always so glad to see them. Also glad to see Mr. and Mrs. Nevitt, St. Mr. and Mrs. Clifford Hinkle spent Thanksgiving in Lexington guests of Mr. and Mrs. Don Beck. They brought little Gary Stephen Beckett home with them

and are enjoying him so much. We are missing Mr. and Mrs. Arthur Kaiser at church. Mr. Kaiser has been sick.

We enjoyed a brief visit from Mr. and Mrs. George Kenneth Martin and little daughter Tuesday night. They were upper guests of Mr. and Mrs. E. B. Hickman enroute to Lexington when they visited us.

The young people of Newburg Church will have Christmas trees and wreaths on sale after December 1 and will appreciate your patronage. All proceeds will go on their \$500 pledge for the building fund.

Cates And Hawes Join Forces; Solve Drainage Problems

This week two Eastwood farmers George Cates, Jr., and William Hawes, joined forces to solve their drainage problems.

Both farmers cooperating with the Jefferson County Soil Conservation District have just completed 4500 feet of drainage work and 1000 feet of diversion terraces. This will enable the water to get off of the land in a systematic way without causing erosion problems or keeping the land too wet to work until late in spring.

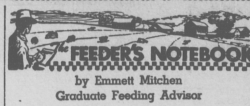

The Soil Conservation Service technician laid out this soil and water conservation work and supervised the construction. A complete farm plan having been worked out with both of these farmers by the technician before any work was started. The farm plan is based on land capabilities and planned for its proper use and treatment.

Most farmers have erosion and drainage problems that know no farm boundary. They can best be solved by the farmers working together as Mr. Cates and Mr. Hawes have to solve their problem.

Many of the practices applied are the same ones that Federal cost share can be had through participating in the A.C.P. program. This requires making application and getting prior approval from A.C.P. County Committee before the work is started. All farmers in the county are eligible for technical assistance which can be had by making request through your Soil Conservation District 304 Federal Building, Louisville, Ky., or calling Unipier 4-7401.

to the Bosse-Embry Funeral Home Wednesday night to extend sympathy to Mrs. Susan Philpott in the sudden death of her husband.

We ate our annual Thanksgiving dinner with Mr. and Mrs. Charles William Hart in Louisville. Such a joyful Thanksgiving and so many blessings and I wonder if we deserve them. Mrs. Don Gelhaus had as Thanksgiving dinner guests her mother Mrs. Glen Montgomery, and Mrs. Marvyn Schwab's family in their new home.

OPTIMISM IN THE EGG OUTLOOK

The over-expansion of the nation's laying flock that was predicted by some a few months back did not materialize, and there is today a feeling of unusual optimism among cage egg producers. This optimism is backed by the following facts:

Many of the hens comprising today's laying flocks are two years old, so heavy fall cullings are almost certain.

There are only slightly more layers on hand today than a year ago.

Consumer egg consumption is high. At the end of the storage season just past, only about half as many eggs were in cold storage as a year earlier.

Cage operators, who start only 15 percent to 20 percent of their replacements at one time, should find advantages in the large percentage of premium size eggs they produce. There could be a heavy run of undersized eggs

from the large broods of January, February and March hatched pullets, widdening the price spread between standard size and undersize eggs.

Selling old hens culled out to make room for early hatched pullets could tend to depress the market for hens. Cage operators, by continual culling and marketing only a few hens at a time, will not be under such pressure to sell hens on a low market.

One of the best ways for egg producers to capitalize on today's opportunity is through greater efficiency in converting feed into eggs. Egg producers who take advantage of the best feeding and management program available will be the ones who gain most from the optimistic situation.

Remember how it was emphasized for years to safely label items in the medicine cabinet? Do the same with insecticides—and keep them out of children's reach.

Layers average dozen eggs on 3.8 lbs. of Purina for year

Quite a tribute to W. F. Owens, Zachary, La., and to Purina Cane Layena who together made this record. An average of 1440 hens over a full year made a dozen eggs for each 3.8 lbs. of Purina feed.

Mr. Owens developed his cage plant from a very small start of 100 cages to his present plant of 1,640 cages, egg cooling room, washer, candler and grader. He sells his eggs in Purina Cane Egg plant to groceries and restaurants in Baton Rouge.

Results like these make it easy to understand why such a large per cent of cage layers are Purina feed. Why not get on the profitable Purina Cane Program now. Ask for our complete Purina Cane Egg booklet.

WHAT GOES INTO THE HEN COMES OUT IN THE CHICK

What is the source of the chick-building nutrients that result in sturdy baby chicks and high hatchability? They must be deposited in the egg by the hen before she builds the shell. A hen will draw from her own body as long as she can to supply the egg with essential nutrients. That's the law of nature!

If the hen doesn't get a continuous supply of enough proper nutrients, she will soon exhaust her body supply and drop off in production. So, you see, production as well as hatchability can be affected.

The major source of nutrients is the feed. It's been proved that what goes into the hen comes

out in the chick. Purina Breeder Chows are more profitable than poultrymen who produce hatching eggs than are most regular production ration. The reason: High production, high hatchability, and stronger chicks.

See us about Purina Breeder Chows at your earliest opportunity. It should pay you well.

30,000 hops make pork for only \$3.50 cwt on Purina

You couldn't want more proof than the records on nearly 30,000 pigs weighed in 29 states. They showed an average feed cost of \$9.80 to make pork on Purina and home grain. Average weight of pigs at the start was 60 lbs. They weighed 119 lbs. at the second weighing, an average gain of 1 2/3 lbs. per head daily.

All records were obtained through Free Pig Weighing Service like the one we offer. See what Purina can do right on your place to help you make pork at lower cost.

PURINA LIQUID PIG WORMER IS EASY TO USE

"It's the greatest pig wormer ever developed by Purina Research," says Dr. Charles W. Darby.

There is no interruption to the regular feeding program. Pigs keep on gaining and eating their regular feed. No catching and cussing necessary.

Just add to drinking water according to directions.

Worm all pigs right after they are weaned. Worm girls, sows, and boars 15 to 30 days before breeding with one of the safest pig wormers known . . . Purina Liquid Pig Wormer.

**NO. 211
CITY OF JEFFERSONSTOWN
ORDINANCE**

AN ORDINANCE proposing to annex to the City of Jeffersonstown a certain tract of land in the County of Jefferson to the South and adjacent to the Southwesterly and a Northerly boundary of the City of Jeffersonstown and to extend the present boundary line of the City of Jeffersonstown so as to include same, and being more particularly hereinafter described as follows, to wit:

Now, Therefore, THE CITY COUNCIL OF THE CITY OF JEFFERSONSTOWN DOES ORDAIN AS FOLLOWS: Section 1. It is deemed desirable and it is hereby proposed to annex to the City of Jeffersonstown and extend the boundary of the city to include same, a certain tract of land which is now embraced within the County of Jefferson and which is adjacent to and contiguous with the present City boundary line described as follows, to wit:

BEGINNING at a point in the present boundary of the City of Jeffersonstown in the Westernly edge of the Billtown Road, which point is also the Northeast corner of the land conveyed to Lejotek Company, Inc. by deed recorded in Deed Book 3366 Page 263 in the office of the Clerk of the County Court of Jefferson County, Kentucky; thence in a North-easterly direction with the Westernly edge of the said Billtown Road right of way and the same extended at the cemetery curve to a point in the present City Limits; thence with said City Limits in a Northwesterly direction to an inside angle therein on the Northerly side of the Waterson Trail; thence continuing with said City Limits along the Northerly edge of the Waterson Trail in a Southwesterly direction to another angle in the present City Limits; thence continuing with said City Limits in a Southeasterly direction to another angle therein; thence continuing with said City Limits in an Easterly direction to the point of beginning.

Section 2. Immediately upon the effective date hereof, the City Clerk is hereby authorized and directed to publish a copy of this Ordinance in four consecutive issues of "The Jeffersonian," a weekly newspaper published in the City of Jeffersonstown, Kentucky.

Section 3. This ordinance shall take effect upon its passage and publication.

JOHN T. ORLANDI, Mayor.
Attest: Raymond J. Anderson, Clerk.

**NO. 213
CITY OF JEFFERSONSTOWN
ORDINANCE**

AN ORDINANCE proposing to annex to the City of Jeffersonstown a certain tract of land in the County of Jefferson to the West of and adjacent to both a Northwesterly and Southerly boundary of the City of Jeffersonstown and to extend the present boundary of the City of Jeffersonstown so as to include same, and being more particularly hereinafter described as follows, to wit:

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF JEFFERSONSTOWN DOES ORDAIN AS FOLLOWS: Section 1. It is deemed desirable and it is hereby proposed to annex to the City of Jeffersonstown and to extend the boundaries of the City to include same, a certain tract of land which is now embraced within the County of Jefferson and which is adjacent to and contiguous with the present City boundary line and described as follows, to wit:

BEING all of Section 3 of Charlene Heights Subdivision as same appears of record in Plat and Subdivision Book 11, Page 74 in the Office of the Clerk of the County Court of Jefferson County, Kentucky.

Section 2. Immediately upon the effective date hereof, the City Clerk is hereby authorized and directed to publish a copy of this Ordinance in four consecutive issues of "The Jeffersonian," a weekly newspaper published in the City of Jeffersonstown, Kentucky.

Section 3. This Ordinance shall take effect upon its passage and publication.

JOHN T. ORLANDI, Mayor.
Attest: Raymond J. Anderson, Clerk.

High View News
By Mrs. Joe Baete

Mr. David Wright who suffered a heart attack in August and has been bedfast since that time, died Friday, November 23 at 5 p.m. His funeral was Sunday afternoon from the High View Church of Christ with burial in Penn Run Cemetery. He left a host of relatives and friends to mourn his passing.

Just heard this morning that James Moore was dead and was buried Tuesday. He died of a heart attack was buried at Selensburg Ind. He left several children one Mrs. Fannie Jones who is a High View resident. Mr. Moore lived for several years in the Fairmont neighborhood. We extend sympathy to both bereaved families.

Mr. and Mrs. Elard Howard and son, Nelson of Lexington, and Albert Baete were Thanksgiving Day dinner guests of Mrs. Russell, Ernest and daughter, Patsy.

Mr. and Mrs. Joe Baete celebrated their 25th wedding anniversary Sunday with all the children and grandchildren home. The Montgomery Builders have started the foundation of Mr. George Conn's lots. We will soon be surrounded by houses, just like living in the city.

Mr. and Mrs. Harold Peak entertained several of their friends with a get-together party last Friday night.

Mrs. Rosemary Baete gave a party at her home on Oleanda Avenue in Louisville last Monday night. Those from High View who attended were Mrs. Helen Boston, Mrs. Harold Peak, Mrs. Joe Baete.

Thanksgiving Day dinner guests of Mr. and Mrs. Alfred Resch were Mr. and Mrs. Cleveland, Williams Mrs. Lillie Koehler.
